# MACHINING SERVICE

## Door ironmongery

The new Vicaima machining centre integrates advanced technology that allows us to offer customers a complete service for doors, which enables greater flexibility, time and cost savings.

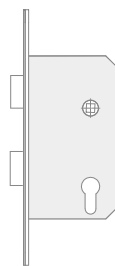

With its high quality and precision of execution, this machining service is available for a wide range of accessories, such as locks, hinges and handles or other specific accessories such as door closers and drop seals.

This ex-factory service is available for both bulk and container requirements.

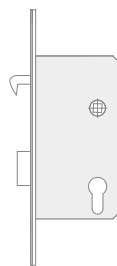

### Locks
