UNEXPECTED HARMONY

Naturdor® Heritage Oak

vicaima.com

Figurative knots and distinctive woodgrain configurations are both authentic and much loved wood characteristics, that are admired and sought after by specifiers everywhere. This desire for irregularity and a closer affinity with nature has led leading interior timber door manufacturer, Vicaima to introduce the new Naturdor® Heritage Oak finish. With its randomly mixed real Oak veneer, it takes a leaf out of nature's book.

The new Naturdor® Heritage Oak collection reflects the best of these attributes, presenting as it does real oak veneer, with figured and flourishing grain configuration that appeals to the senses and embraces the true love of random wood patterns. Looking deeper at its intricate and natural veneered surface, Naturdor® Heritage Oak displays wood knots and contemporary veneer splicing to embody differing tonal shades to best advantage. Further design flexibility can be achieved with a choice of a matt or standard sheen finishing and for an unforgettable aesthetic experience, deep texturing can also be added.

Offering a comprehensive solution, remains as always paramount and so to complete the ensemble, wardrobes and wall panels can be provided, along with door frames, architraves, glazed door options and of course decorative face groove designs for that finishing touch. In addition to its obvious good looks, Naturdor® Heritage Oak is available with fire, acoustic and security performance for the most demanding situations, giving this new collection beauty and functionality at the highest level.
